

#### CONVICTS ARRIVING IN SIBERIA

*From Russia to Siberia came the convicts—common criminals and politicals, bearded muzhiks and good-humored vagabonds—those who came for the first time and those who knew every prison guard by name.*

#### THE AUTHOR IN EXILE

*Even as a political exile in Siberia in 1915, the author continued to write for the Russian press and to direct a municipal study on the effect of the war on the local labor market in Irkutsk.*

#### THE FUTURE MRS. WOYTINSKY

*In Siberia the author found not only exile but love and marriage. His mother, who first saw her future daughter-in-law in this picture, expressed fear that a girl in such a hat might be too glamorous for her son. On seeing a later photograph of the young couple together (left), she felt sure her son would be happy.*
